COLOP Printer

Unique as you

The COLOP Printer is designed to integrate all the advantages of a self-inking stamp with a modern outstanding design.

The XXL image window offers personalisation on the highest level – making the stamp unique... unique as you!

Numerous patented innovations and fascinating technical details guarantee easier and more precise stamping.

Outstanding design

- The innovative frame concept doesn't just look great it also makes the Printer much more compact and stable.
- The eye-catching design detail of the Printer is its XXL image window. Due to the unique ImageCard™-system, 4 different colours can be chosen just by using the included cards. As the stamp is offered in two different frame colours - white and black - 8 different variations of the stamp are available.

Personalisation – unique as you

For those who want their Printer even more “personal” the XXL image window can easily be designed by oneself without creative limitations – making the stamp an eye-catcher on the desktop.

ImageCard™ Designer

The intuitive ImageCard Designer helps the end user to personalise an ImageCard in a few steps.
